

Deceptive Communication

Interpersonal deception theory (IDT) attempts to explain how individuals handle actual (or perceived) deception at the conscious or subconscious level while engaged in face-to-face communication.

Interpersonal deception theory - Wikipedia

What types of communication are considered deceptive? What characteristics do researchers look for when investigating deceptive communication? The culmination of more than 15 years of collaborative research, Deceptive Communication explores the flip-side of "truth" in 20th century society. Synthesizing their own research and recent findings from other scholars, Miller and Stiff highlight nonverbal cues and other deception detection devices, situational factors affecting detection accuracy ...

Deceptive Communication | SAGE Publications Inc

Deceptive Communication. "To say this book addresses one of the most significant and pervasive social phenomena of our age is not hyperbole. . . . The subject of this book is more than a treatise on an important social issue; it is a book that goes to the very heart of communication studies. . . .

Deceptive Communication - Google Books

Although in normal conversation this is problematic, in deceptive communication this is a desired attribute. Considering whether communication is deceptive or not depends on the view point, and the intentions behind the communication, which are often difficult to ascertain.

TRD - Deceptive Communication - World-Information.Org

Deceptive Communications at Work. Deceptive communication is one technique of communication abuse. It is any intentional action (or inaction) associated with communication that creates advantages for the deceiver by causing others to adopt or retain false models of reality. Lies are one common example.
